The introduction should end with an account of the paper aims.

*The main text* should include an account of the research methodology (experimental or theoretical), subject of research, equipment, measurement and observation methods, the precision and errors of the experiment methodology. It should include the results and their analysis. It is not allowed to repeat data in tables, drawings and texts.

*The conclusion* should briefly expound on the essence of conducted research highlighting the importance and degree of the novelty of results.
